Furious Seasons.

Zyprexa Documents

Support This Site--Fundraiser Through Oct. 10

About 100 people a month access and download the Zyprexa documents hosted on this site. That's great. It would be even greater if you would consider making a contribution, however large or small, to this site in order to help defray the operating costs of this site. There is a PayPal button on this page or also on the site's main page. Thanks for your help.

Contrary to my February 2007 note below, the set of Zyprexa documents linked to on this page is the full and complete set of documents.

February 7, 2007

Hi. Since its inception in 2005, this blog has been all about offering transparency and accountability in the mental health world. Transparency and accountability are what the media is supposed to provide in America--be it in the form of newspapers, broadcast, websites or blogs. This page contains links to documents concerning Zyprexa, an atypical antipsychotic made by Eli Lilly. It's a drug that has been in the news, owing to these documents, since December when the *New York Times* broke news about allegations about the company's alleged behavior around the marketing of Zyprexa.

Soon after, I obtained the same set of documents. I am making them available to readers. In so doing, I make no assertions as to their content. I post. You decide.

What I have included below are links to the documents, which I converted from their original .tiff format--large files, difficult to view--to .pdfs,

Extreme PDF Compression

which are much simpler to view. What I have included, for now, is not a complete set of the approximately 360 files, but one-third of the documents. You'll need a copy of Adobe Acrobat to read them.

In some cases, the original files name--numbers--were slightly altered during the file conversion process, but the final five or six digits of the original file name are intact. I am leaving the file naming system in its original form until I figure out a better system.

If you plan to download any of the documents, please respect that I have limited amounts of file transfer bandwidth available and only download the documents for serious research or journalistic purposes. Where file sizes are over 1 MB, I have listed the file size in the link.
